CHAPTER – 1
GENERAL INFORMATION

CHAPTER-1: GENERAL INFORMATION

1.1 Aim

The Aim of the Academic Guidelines & Instructions Handbook is to provide information about modalities of various important training activities which are the integral part of the course curriculum.

In addition, some administrative aspects are also included for the information of the trainee officers.

1.2 Organization

The National Institute of Management (NIM) Karachi, a constituent unit of National School of Public Policy (NSPP), plays a pivotal role in training and capacity building of the civil servants of Pakistan.

The National Institute of Management (NIM), Karachi has two training wings: **Mid-Career Management Wing (MCMW) and Senior Management Wing (SMW)**. The MCMW conducts the Mid-Career Management Course (MCMC) for Grade-18 officers, whereas the SMW conducts the Senior Management Course (SMC) for Grade-19 officers.

The two wings serve as the pivot around which all the training activities of the participants revolve. The Institute is headed by a Director General who oversees all the training and academic functions. Each training wing (i.e. SMW and MCMW) is headed by its Chief Instructor, and comprises faculty members designated as Additional Directing Staff (ADS-MCMC) /Directing Staff (DS-SMC) and ADS (T&C-MCMC)/DS(T&C-SMC).

1.3 History

The National Institute of Public Administration (NIPA) Karachi was established in 1961 as an autonomous government organization under the Establishment Division and registered under Societies Registration Act (No. XXI of 1860). Together with its sister institutions at Dacca and Lahore, it was initially set up for mandatory training of senior civil servants belonging to various occupational groups and autonomous bodies in the federal and provincial governments (at the senior level which later came to be known as BPS-19) who were in the eligibility zone for promotion. Over a period of time, other campuses of NIPA were established at Lahore, Peshawar and Quetta. Erstwhile NIPA Karachi conducted 82 Advanced Courses in Public Sector Management (ACPSM) till 2006.

In 2002, the NSPP Ordinance was promulgated, and NSPP was notified on 15th May, 2005. The NSPP Board of Governors (BoG) is headed by the President of Pakistan. The purpose of establishing the NSPP was not only to improve the quality and effectiveness of existing public sector service providers but it was also to empower new entrants in the public sector with world-class teaching, training and research facilities, and thus ultimately improve service delivery and policy outcomes.

The contents of ACPSM were later modified and the Course was re-named as Senior Management Course (SMC). Up till 8th SMC, the course was run only at Senior Management Wing (SMW) of National Management College (NMC), Lahore. However, to facilitate the officers from Sindh and Balochistan provinces, the government decided to also run the course at NIM Karachi. As a result, subsequent SMCs (with effect from 9th SMC) have been simultaneously conducted at NIM Karachi, in parallel to NMC Lahore. In this context, the 36th SMC has been scheduled to be conducted *from Monday, 9th September to Friday, 27th July, 2024, simultaneously at NIMs- Karachi, Lahore, Peshawar, and Islamabad.*

1.4 NIM Vision

“Introducing excellence in public service delivery through capacity building and inculcation of skills and values essential for Good Governance.”

1.5 Mission Statement

“To contribute towards improvement of the quality and effectiveness of public service delivery by enhancing the competencies of public servants”.

CHAPTER - 2
ACADEMIC ASPECTS

CHAPTER-2: ACADEMIC ASPECTS

(To be read in conjunction with Syllabus Book)

2.1 Training Modules and Conduct

- a) The syllabus of the Course comprises seven (07) Study Modules spread over three (03) Terms as under:

Module– 1	National Environment: Internal and External Dynamics
Module– 2	Impact of Diversity & Evolution of Pakistani Society on Administration & Service Delivery
Module– 3	Economic and Financial Management at Operational Level
Module– 4	Issues of Operational Effectiveness within Governance Framework
Module– 5	Research Methodology and its Application
Module– 6	Study Tours: Field Research
Module –7	Information & Communication Technology

- b) Each module is sponsored by a faculty member, who is responsible for organizing and conducting it in accordance with the Syllabus in coordination with the DS (T&C), under the supervision of the Chief Instructor (CI), SMC Wing, and overall guidance of the Director General (DG).
- c) Sessions are generally held centrally in the SMC Class Room (CR), NIM Karachi.

Scholars and eminent speakers, who are experts in their specific fields, are invited to deliver talks as Lecture Discussions (LDs) /Panel Discussions (PDs) on given topics, which are followed by Q & A sessions wherein participants have the opportunity to raise queries and clarify confusions on issues of relevance to public policy formulation and implementation. In addition to LDs and PDs, Workshops (W) for skill building and Tutorial Discussions (TDs) for exchange of knowledge and ideas are also included.

- d) Aim and Scope of Study of each topic and academic activity is described Module-wise in the Syllabus Book, which is issued separately.

2.2 Classroom Modalities

All course activities are organized as per Weekly Schedule (WS). SMC Class Room (RC) serves the central academic activity center for most course activities – Lecture/Panel Discussions (LDs/PDs), Talks by participants (T), and individual Presentations (P). However, some Workshop (W) activities may be held in the NIM-Auditorium (A) or IT Lab (Lab) if the Workshop Facilitators so desire. Joint Lectures/Talks (with MCMC or other NIMs) may also be arranged in online/zoom mode. Sometimes, due to logistical constraint, speakers may deliver their LDs on zoom. Tutorial Discussions (TDs) and group work on Case Study Research (CSR) and Simulation Exercises (SE) is conducted in the Syndicate Rooms (SR).

Flip Class Room method may be used during the course for some Lecture Discussions (LD). Under this method, recorded lecture of a speaker will be shared in advance of the LD to be held, so that the participants come prepared for utilizing sufficient/most time of the LD (in person) for interactive discussion.

Changes in the WS are regularly reflected in the revised WS. Timing of sessions can be sometimes changed at the request of speakers due to unavoidable conditions and health issues at their ends. Sessions can also be extended by CI/DG, on need basis.

Guest Speaker(s) are guided and expected to follow 60:40-time rule (i.e. 60 % for talk by speaker(s) and 40% for interactive Q&A). However, sometimes, the Guest Speakers may vary the format of the session to customize to his/her pedagogical style and to cover the broad syllabus of the LD/PD.

Participants are encouraged to prepare in advance for each class by reading shared material or by making an effort on their own for active learning. The participants may also share reading material with the faculty for circulation amongst the participants in soft copy. These efforts help in generating constructive queries during class sessions. Participants are expected to raise questions and to fill out Questions & Answer (Q&A) Pro forma for every important activity, which are expected to be submitted through the Course Coordinators to the CI Office at the conclusion of the activity.

Participants are expected to turn on button for raising their questions. Faculty/Moderator notes it, from the back, and records it. At the end of each day, the tally of questions asked by each participants is recorded by the T&C Office, which helps the moderator to prioritize questions following day, from those who have minimum number of questions to their credit. Gender balance is also accorded consideration.

Research Day(s) /Session(s) may be utilized for conducting research activities, preparing and finalizing individual/group assignments, organizing policy dialogues and seminars, arranging extension talks by eminent persons/experts/scholars, holding group (RG/SYND) discussions, engaging in committees' and societies' consultations, organizing voluntary/peer talks (briefings about departments and their projects/achievements, talks about unsung heroes and less known heritage & cultural sites, book reviews & talks with authors, language teaching & learning, sports competitions, cultural evenings/nights with/without alumni, social evenings with societal leaders from all walks of life, sharing of personal achievements, etc.)

Moreover, it enables the Faculty to develop a close interaction with a small group of participants in a TD at regular intervals. While this interaction provides sufficient opportunity to the participants for expressing their views more freely, the primary focus is on generating discussion on important issues within the spectrum of course curriculum. In addition, a few short exercises may also form part of the Syndicate activities.
- c) Tutorial Discussions are held in designated Syndicate Rooms, located on the first floor of the Campus Building. All participants are generally divided into an optimum number of syndicates at the beginning of the first term depending on the number of faculty members available and/or on the basis of pedagogical planning.
- d) Syndicates are restructured before the start of second and third terms by the

SMC Wing, with a mix of participants from various departments/ occupational groups, to encourage relationship building and knowledge sharing.

- e) From among the participants in a designated Syndicate, a Chairperson and a Secretary are selected by the Covering Faculty/CI for each TD. The Chairperson is expected to find relevant material and policy/strategy documents relevant to the TD topic, and shares the same with his/her fellow participants in advance for their review, and/or assigns each participant a role to prepare for the discussion in advance. 2.27 Public Policy Atelier (PPA) Exercise

This is a very important graded exercise.

Public Policy Atelier (PPA) Exercise was originally introduced as a tutorial exercise, as part of NMC-117. In this exercise, senior civil servants/experts are invited as Mentors/Experts who mentor participants in developing conversations on various policy themes. In this exercise, syndicates/groups engage interactively with their concerned mentors to come up with meaningful policy lessons on their assigned area/theme.

Following successful introduction of the Public Policy Atelier (PPA) exercise at NMC, Lahore, the same was introduced as part of Senior Management Course, with effect from 35th SMC, at all NIMs, including NIM, Karachi.

Concept

Modeled on adaptation of *Atelier*, a method of learning used in European Art Schools which art students in a room share and draw the same *life-model* from different locations, the PPA will have a renowned civil servant at the center of the constellation. The Atelier (meaning a workshop) method has its roots in the guilds of the early renaissance. For more than five hundred years, master artists transmitted a system of knowledge to their students. In recent years some European Schools of Education and Public Policy have also integrated this approach into their methodology that operates by facilitating discussion among practitioners through sharing of individual dilemmas in the presence of a subject expert.

PPA designed by the NIM will have an iterative style of working. The title has been chosen to tap broad affinity with an established training and educational technique. However, there are no methodological encumbrances associated with the technique as practiced in art schools.

The spirit of this activity will be more practical than academic, more leadership oriented than analytical. Mentor will not just be a moderator but s/he will also serve as the *nucleus* of all discussions. Other formal modes of analysis prevalent at NIMs (e.g. Simulation Exercises, Case Studies Research/Case Analysis, and Topical Discussions) make use of analytical techniques wherein participants discuss policy issues from the detached viewpoint of a theoretical *observer*. A need was always felt to contrive a training setting wherein there was some space to discuss nuances, subtleties, paradoxes, and dilemmas of practical nature which do not find expression in formal analyses and reports.

Methodology

1. Each Syndicate/Group will be assigned a Mentor/Domain Expert and a faculty member.
2. There will be three (02 hours)/six (01 hour) mentoring sessions (subject to time availability) for each Atelier Syndicate.
3. In the first sitting with the Mentor, the syndicate will carve out a topic /thematic area from the broad area of discussion assigned. Also, to facilitate work, a Chairperson and a Secretary from amongst the Syndicate members, will be either nominated or selected by the Mentor.
4. Mentor may decide to steer the discussion and interaction through any of the following modes:
 - a. focusing on a set of readings distributed to the participants
 - b. simple unstructured discussion and analysis interspersed with mentors own experiential knowledge and insights
 - c. soliciting response on a set of pre-assigned questions exercise
 - d. having presentations or briefings from participants on individual themes
 - e. Any other method. Regardless of the method, the unique flavor of the experiential knowledge and practical insights from the mentor will remain the hallmark of this activity.
5. At the end of the exercise, each Syndicate/Group will make a presentation based on its work carried out under the mentorship and guidance of the concerned Mentor/Expert. The presentations will be made before the whole class, which may be followed by Q&A in the presence of the concerned Mentors/Experts.
